

ANTIQUE GLAZE LAMBSKIN

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Antique Glaze Lambskin is an aniline-dyed and hand-rubbed lambskin leather. It is hand-rubbed with a glazing finish that accentuates the exceptional natural softness and unique texture of each individual skin.

CHARACTERISTICS:

Antique Glaze Lambskin does not have the full pigmented coverage of a Finished leather hide; Aniline leathers such as Antique Glaze Lambskin are less consistent than Finished leathers.

As a hand-rubbed leather, there will be some variation in shading and coloration within a skin and from skin to skin.

These are small skins, averaging 9 - 11 SF in size.

A: Antique Glaze Lambskin is an Aniline leather, with no surface pigments; there will be natural color shading within a skin and from skin to skin.

B: Antique Glaze Lambskin is a Hand-Rubbed leather, therefore there will be some variations in coloration and boldness of the rubbing effect within a skin and from skin to skin, due to its hand-crafted nature.

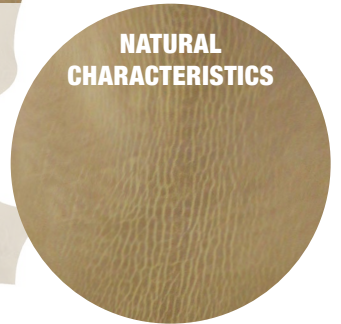

C: Natural variations in color, tone and grain texture will be highlighted from the hand-rubbing. The resulting variance in design and color are part of its natural beauty.
