

FAUX PARCHMENT COWHIDE

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Faux Parchment Cowhide is an aniline-dyed and hand-rubbed cowhide created to invoke the look of genuine parchment, but with a soft supple feel, suitable for wall covering or upholstery use.

Hides are selected from our finest cowhide reserves for specific grain and then all color is hand-applied and built in layers of hues that accent the natural markings, graining, and beauty that become the "pattern."

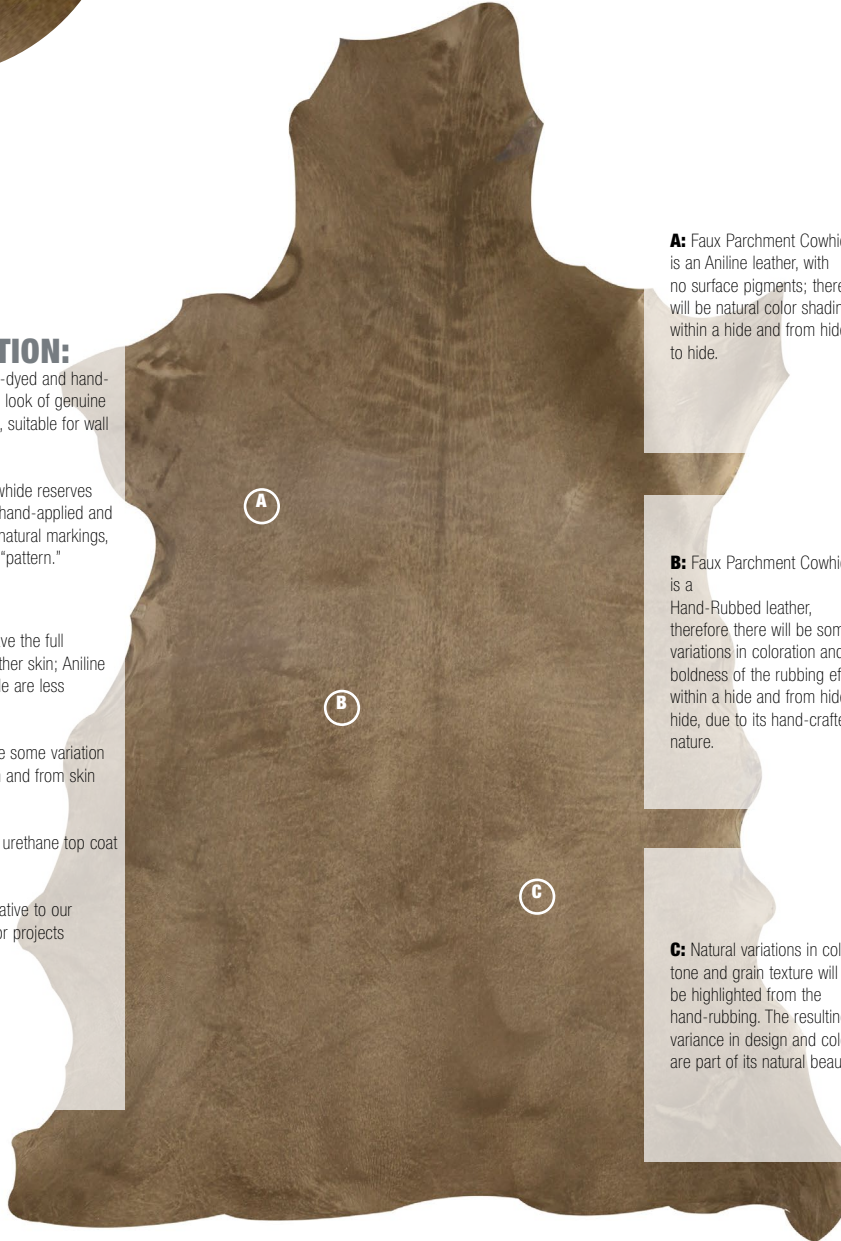

CHARACTERISTICS:

Faux Parchment Cowhide does not have the full pigmented coverage of a Finished leather skin; Aniline leathers such Faux Parchment Cowhide are less consistent than Finished leathers.

As a hand-rubbed leather, there will be some variation in shading and coloration within a skin and from skin to skin.

Faux Parchment skins are sealed with urethane top coat for added protection.

Faux Parchment Cowhide is the alternative to our standard Faux Parchment Lambskin for projects requiring larger hides.

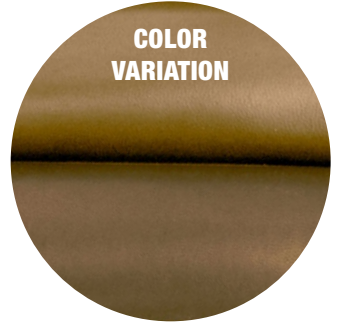

A: Faux Parchment Cowhide is an Aniline leather, with no surface pigments; there will be natural color shading within a hide and from hide to hide.

B: Faux Parchment Cowhide is a Hand-Rubbed leather, therefore there will be some variations in coloration and boldness of the rubbing effect within a hide and from hide to hide, due to its hand-crafted nature.

C: Natural variations in color, tone and grain texture will be highlighted from the hand-rubbing. The resulting variance in design and color are part of its natural beauty.
