

GRIT
AWARD

CHRIS OARE

Grit is awarded to Partners that have the passion and determination to stay focused on the goals at hand, even when difficulties get in the way. Resilience and passion are cornerstones of these Partners.

Chris is emblematic of passion and persistence, his desire to create and duplicate colors and products in samples and in production is unrivaled. He has come through time after time, day after day achieving some of the most complex looks and matches, never making excuses or looking for an easy way out. This passion and drive has been extended from Chris in his individual work to those he teaches and mentors, as he looks for greatness and growth for the company and the partners he trains to achieve greatness with passion and persistence.
