

CORKED COWHIDE

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Corked Cowhide is an aniline-dyed, Finished cowhide that has been embossed with a non-directional cork pattern to create a one-of-a-kind leather. After embossing, the tonal effect color on each hide is rubbed off, leaving natural highs and lows in color throughout the hide.

CHARACTERISTICS:

As a Hand-Tipped leather, there will be some variation in coloration and boldness of the rubbing effect within a hide a from hide to hide.

Durability and built-in protection from soiling, fading, and water.

More consistency and less apparent defects than found in Aniline leathers.

There are no plate or match lines apparent and Corked Cowhide is produced as whole cowhides of 55-60 SF average size.

The finish effect of this leather is applied by hand, the resulting design and color are part of its natural beauty.

A

A: Leather is a natural product, therefore it may take the embossing effect differently from area to area and therefore, there will be some variation in the depth of the embossed pattern print. This variation is controlled as much as possible.

EMBOSSING PATTERN DEPTH

B

B: Corked Cowhide is a Hand-Rubbed leather, therefore there will be some variation in coloration and boldness of the rubbing effect within a hide and from hide to hide, due to it's hand-crafted nature.

VARIATION IN HAND-RUBBED
