

METALLIC PERFECTLY PEBBLED COWHIDE

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Metallic Perfectly Pebbled Cowhide is aniline-dyed, Finished cowhide that has been embossed with a small, pebbled grain embossing and then Hand-Tipped with metal-inspired hues to give a sophisticated look to the leather.

CHARACTERISTICS:

The subtle, tone-on-tone metallic Hand-Tipping enhances the natural look of the leather and accentuates the nice hand.

As a Hand-Tipped leather, there will be some variation in coloration and boldness of the Hand-Tipping effect within a hide and from hide to hide.

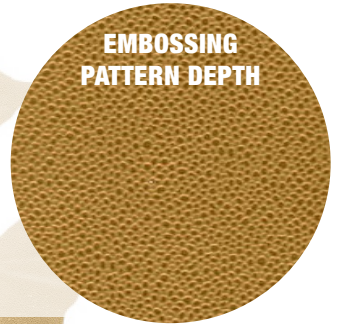

Durability and built-in protection from soiling, fading, and wear.

More consistency and less apparent defects than found in Aniline leathers.

There are no plate or match lines apparent and Metallic Perfectly Pebbled is produced as whole cowhides of 55–60 SF average size.

A: Leather is a natural product and it may take the embossing effect differently from area to area and therefore, there will be some variation in the depth of the embossed pattern print. This variation is controlled as much as possible.

EMBOSSING PATTERN DEPTH

B: Metallic Perfectly Pebbled is a Hand-Tipped leather, therefore there will be some variation in coloration and boldness of the tipping effect within a hide and from hide to hide, due to its hand-crafted nature.

VARIATION IN HAND-TIPPING
