

# SHIMMERING SUEDE COLLECTION EXCALIBUR

PRODUCT CHARACTERISTIC SHEET

## PRODUCT DESCRIPTION:

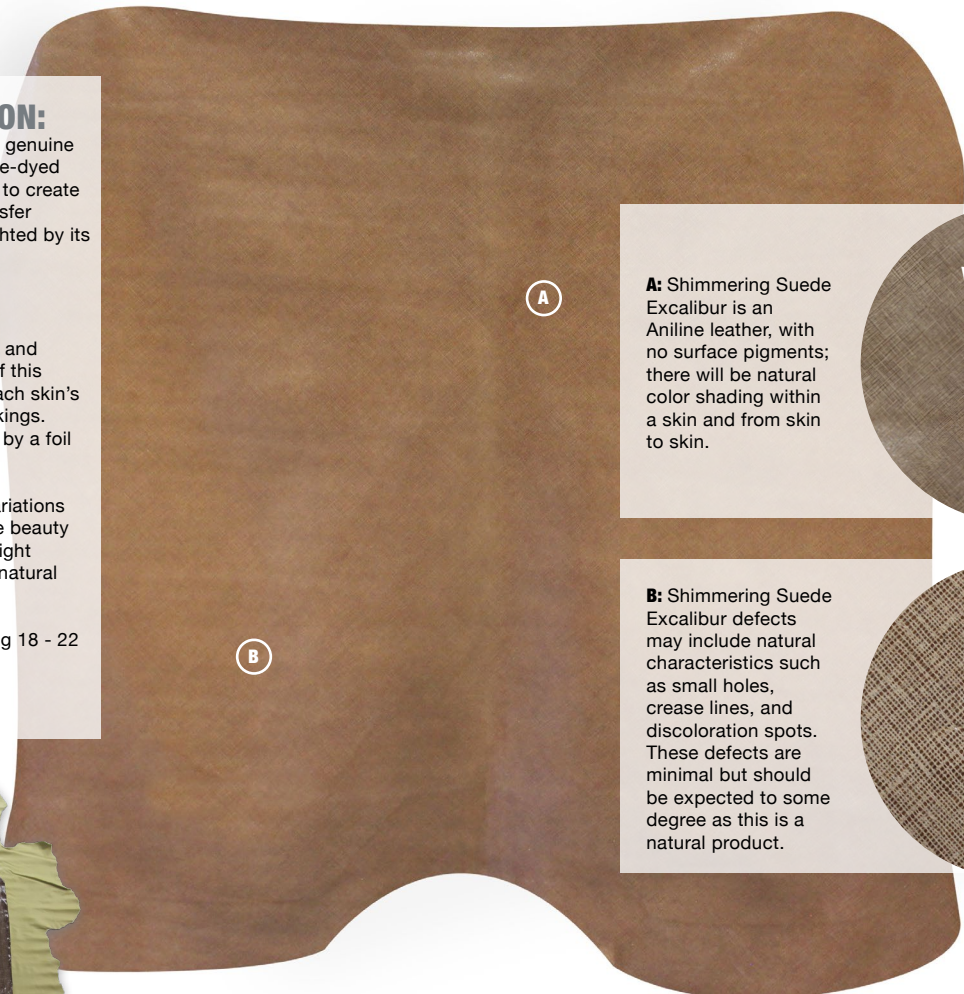

Shimmering Suede Excalibur is genuine split suede that has been aniline-dyed and has received a foil transfer to create its final look. The shiny foil transfer creates a pattern that is highlighted by its sparkling sheen.

## CHARACTERISTICS:

Natural variations in color, tone and texture are part of the beauty of this leather artwork and highlight each skin's unique history and natural markings. The pattern has been imparted by a foil transfer.

As an Aniline leather, natural variations in color and tone are part of the beauty of this natural leather and highlight each skin's unique history and natural markings.

These are small skins, averaging 18 - 22 SF in size.

A

**A:** Shimmering Suede Excalibur is an Aniline leather, with no surface pigments; there will be natural color shading within a skin and from skin to skin.

B

**B:** Shimmering Suede Excalibur defects may include natural characteristics such as small holes, crease lines, and discoloration spots. These defects are minimal but should be expected to some degree as this is a natural product.
