

TAPESTRY GOATSKIN

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Genuine goatskin, aniline-dyed, finished and hand-rubbed with a pigmented glaze that produces a burnished finish and accentuates the distinctive grain and natural character of each individual skin.

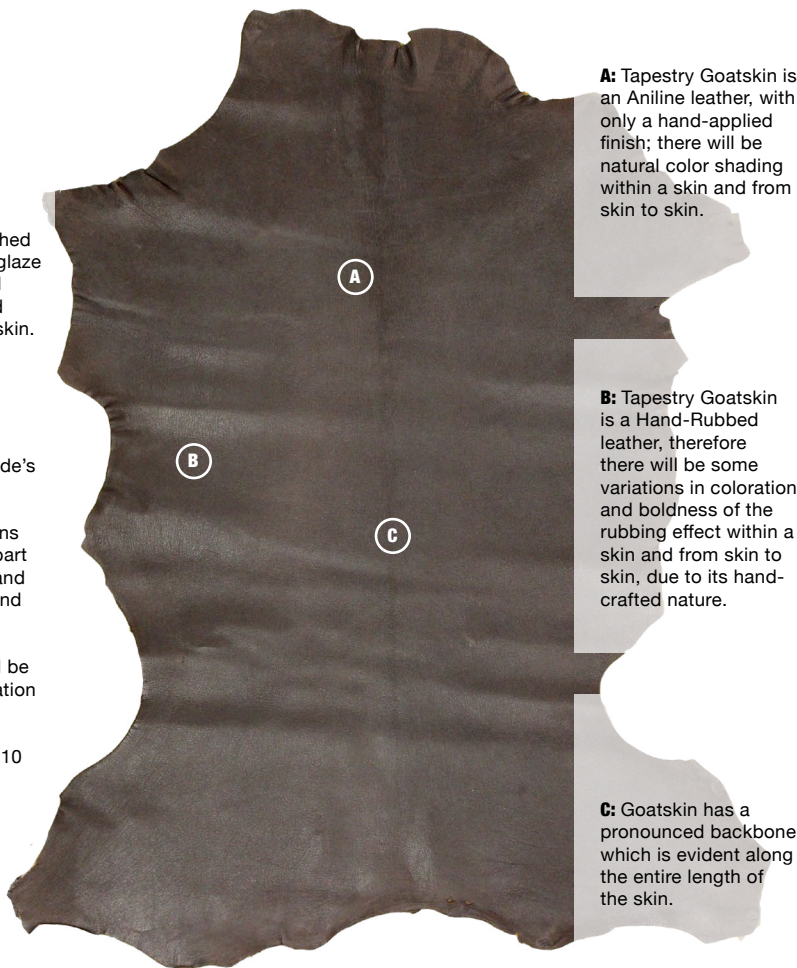

CHARACTERISTICS:

Natural variations in color, tone and texture are part of the beauty of this leather artwork and highlight each hide's unique history and natural markings.

As an Aniline leather, natural variations in color, tone, and grain texture are part of the beauty of this natural leather and highlight each skins unique history and natural markings.

As a Hand-Rubbed leather, there will be some variation in shading and coloration within a skin and from skin to skin.

These are small skins, averaging 8 - 10 SF in size.

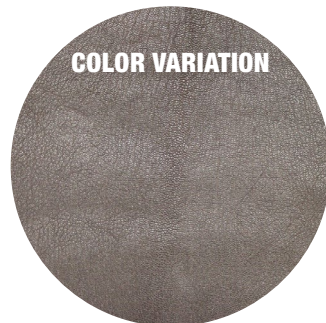

A: Tapestry Goatskin is an Aniline leather, with only a hand-applied finish; there will be natural color shading within a skin and from skin to skin.

B: Tapestry Goatskin is a Hand-Rubbed leather, therefore there will be some variations in coloration and boldness of the rubbing effect within a skin and from skin to skin, due to its hand-crafted nature.

C: Goatskin has a pronounced backbone which is evident along the entire length of the skin.
