Who is Townsend Leather...

At Townsend Leather, we have a *passion for leather, luxury, and design*. Our design-driven philosophy allows us to offer creative and innovative leathers along with virtually unlimited opportunities for customization. With 50 years of experience working with designers in the residential, hospitality, contract, aviation, and transportation markets around the world, we strive to provide top-of-the-line leathers that are as unique as each of our customers.

Our trained professionals are experts at understanding the many nuances of leather. We manage the entire process from start to finish, from your initial consultation to determine the best approach to your project, right through dyeing and finishing, to final delivery of your leather.

We are craftspeople and artisans of leather, not just distributors or marketers. For us, this is a life passion and a family-owned business, not just another job. Our company was founded in 1969 by the Kucel family and our leather is produced in our state-of-the-art facility located in Upstate New York, about 50 miles northwest of Albany.

The result: superior quality, consistency, and attention to detail you can count on for all Townsend Leather products. This is what sets Townsend Leather apart and what can make a significant difference in the outcome of your next design project.

Using 100's of years of collective experience, a rich history, and state of the art technology, we hand-craft each hide to the highest of expectations.

For years, Townsend Leather has continuously won awards for our Team, our culture, and our Leadership - making us a Top Work Place and Best Place To Work.

We believe in our company, in our people, and in our culture. We believe in making it better every day. Awards like these are not necessary, they aren't something we specifically strive for, but to be recognized for the things that we hold near and dear to our hearts, feels good.

Townsend Leather is heartfelt intent on balance, growth, and innovation for all, especially those that face marginalization and unfair barriers.

We strive to make a positive environmental impact in all we do.

Leathers that give you the time to focus on your love of design.

Proud to be believing in better.

Proud supporter of the HRC and all humans.

Being the Manufacturer allows us to perfect the Flammability Requirements for any project

Hand-crafted to not only stand the test of time, but also meet the most stringent quality and durability standards.

Hand-crafted in the foothills of the Adirondack Mountains, in Upstate New York - the Leather Making Region.

Quality at the heart of everything we do. We are proud of our AS9100D certification.
