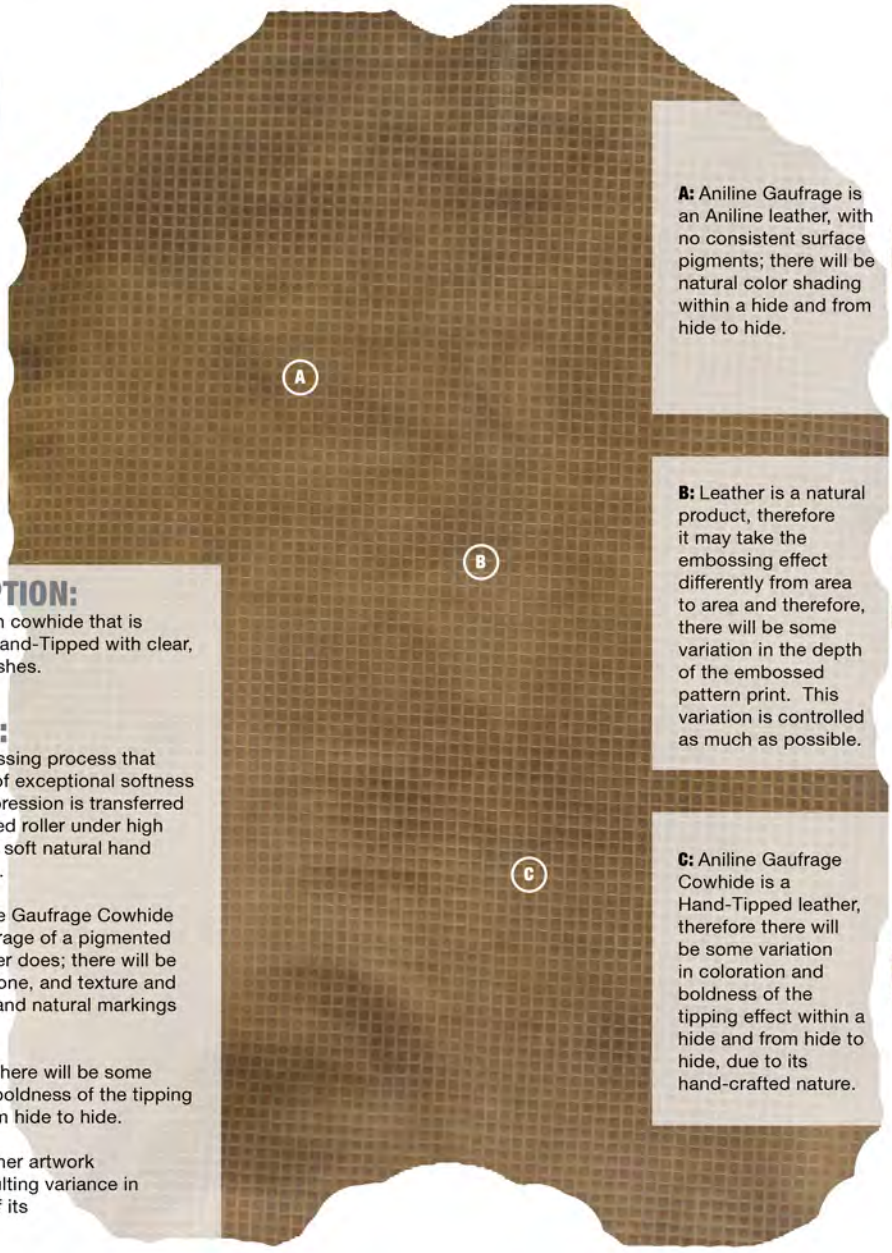
ANILINE GAUFRAGE COWHIDE

PRODUCT CHARACTERISTIC SHEET



A: Aniline Gaufrage is an Aniline leather, with no consistent surface pigments; there will be natural color shading within a hide and from hide to hide.

B: Leather is a natural product, therefore it may take the embossing effect differently from area to area and therefore, there will be some variation in the depth of the embossed pattern print. This variation is controlled as much as possible.

C: Aniline Gaufrage Cowhide is a Hand-Tipped leather, therefore there will be some variation in coloration and boldness of the tipping effect within a hide and from hide to hide, due to its hand-crafted nature.

PRODUCT DESCRIPTION:

Aniline Gaufrage is full grain cowhide that is gaufrage-embossed then Hand-Tipped with clear, metallic and pigmented finishes.

CHARACTERISTICS:

Gaufrage is a unique embossing process that creates upholstery leather of exceptional softness and beauty. The design impression is transferred to the leather by an engraved roller under high heat and low pressure for a soft natural hand without pattern match lines.

As an Aniline leather, Aniline Gaufrage Cowhide does not have the full coverage of a pigmented formula as a Finished leather does; there will be natural variations in color, tone, and texture and each hide's unique history and natural markings will be highlighted.

As a Hand-Tipped leather, there will be some variation in coloration and boldness of the tipping effect within a hide and from hide to hide.

The finish effect of this leather artwork is applied by hand, the resulting variance in design and color are part of its natural beauty.

A sample is not necessarily representative of the overall effects of this leather.

Due to lack of full finish coverage, this product type is subject to more soiling, fading, and wear.
