

CHRISTA FONDA

SUPERLATIVE WINNER

As a former Jane Cool, Spirit Ambassador, and Superhero – Christa has been showing us her warm and bright personality matched with urgency and work ethic for close to 7 years now! Last year was a big change for her, shifting from customer service to Shipping and a Cycle 3 scheduler/expediter role in production!

She spent a big part of 2022 in transition. Still busy with FACC and training Kelly and a few others, while also trying to get entrenched in production at a time when early in the year we had never been more behind. Christa was juggling a lot of balls with scheduling shipping, coordinating efforts with QC, final inspection, Cutting, Shipping, and production all while being in a new role created just for her with no job description and no precedent to follow. To say that it was a lot to handle, is an understatement. Christa did not let the pressure get to her and crushed it as always!

Christa’s discipline, urgency, focus, cool temperament, and follow through make her an expert communicator. From her weekly reports to what is planned day to day, she is persistent in getting answers, help, and making sure everyone knows the priorities and current status. She has been such a positive yet persistent communicator, she would have been justified in winning this award in nearly any of her 7 years! She earned this superlative this year, in her hardest one, learning production, shipping, and training customer service, all throughout one of our busiest and craziest years ever!! Well deserved Christa. We are so proud of and thankful for you!!

COMMUNICATION AWARD

About This Superlative

Communication is one of our original and most important values, and is continually redefined. Where communicating a lot of detailed, timely, and at times under pressure info politely, accurately, pleasantly, and above and beyond what is expected.
