

# ARDEN WEAVE COWHIDE

PRODUCT CHARACTERISTIC SHEET

## PRODUCT DESCRIPTION:

With its intricate basketweave design, Arden Weave weaves a story of timeless elegance, offering a tactile experience that is both rich and captivating. Its subtle texture creates an interplay of light and shadow, adding depth to any setting.

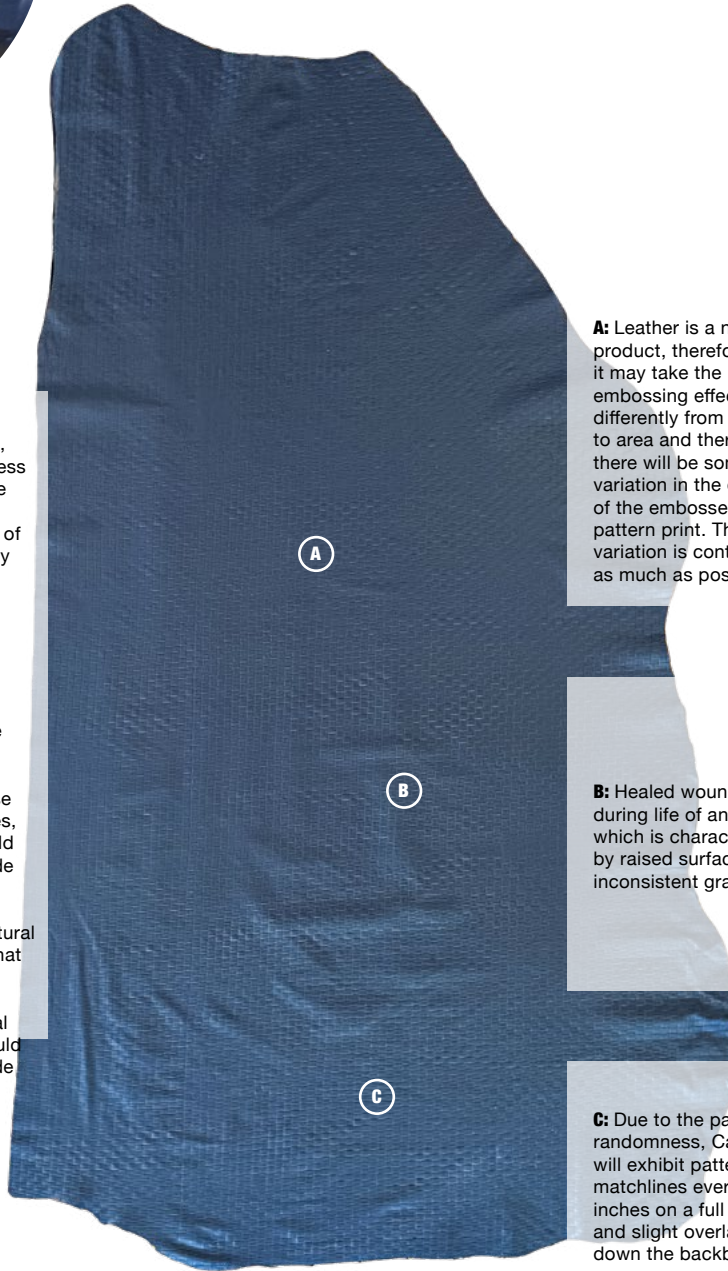

## CHARACTERISTICS:

Arden Weave is a lightly finished, protected leather that is embossed.

As an Embossed leather, there will be less natural characteristics shown on a hide due to the embossed pattern disguising many of these, but because this is a natural product, neck wrinkles, scars, and other characteristics should be expected and will vary within a hide and from hide to hide.

Arden Weave Cowhide will exhibit natural variations in color, tone and texture that are part of the beauty of this leather.

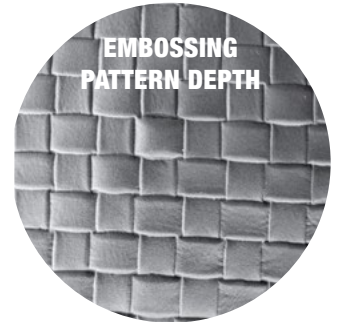

Each hide's unique history and natural markings such as neck wrinkles, should be expected and will vary within a hide and from hide to hide.

**A:** Leather is a natural product, therefore it may take the embossing effect differently from area to area and therefore, there will be some variation in the depth of the embossed pattern print. This variation is controlled as much as possible.

**B:** Healed wound during life of animal which is characterized by raised surface and inconsistent grain.

**C:** Due to the pattern randomness, Candid will exhibit pattern matchlines every 29 inches on a full hide and slight overlap down the backbone.
