

A former Rookie of the Year and winner of our Teamwork award, and a very close runner up for our Partner of the Year award this year, we were thrilled to award Ken Warner, our Flexibility award this week!

Ken, made an impact everywhere he went last year at Townsend, at the drums, shipping, final inspection, or in Embossing the impact would have been spotlight worthy in just one of those areas. But he was pulled back and forth all year along, and not always to his personal preference, but he loves to help others and is so dedicated to our partners and team, he went with it all year long!

Partners remarked what a fun , upbeat, and energetic boost to their team dynamic! See here some of the votes he so well earned!

“Ken Warner showed a lot of flexibility in his role in leading the dry drums but also getting pulled to help with shipping whenever they needed him. He was a lifesaver to that team and brought his trademark personality to both roles.”

“Ken Warner- Where haven’t you seen ken working this past year? Shipping, Final Inspection, all over the dry floor, even heading up the crew here for christmas shutdown.”

Congratulations Ken! We love your amazing, authentic personality and your wonderful work ethic and determination to help our teams through any and all challenges!!

SUPERLATIVE WINNER

KEN WARNER

Flexibility as a value means a partner will always step up: for work, for fellow partners, for where there is a need that will benefit the larger good and the company. This partner will shift priorities in a minute, hour, day, week, month, or even years. No matter how busy they are, they make time to help others.
