

Congratulations to our new Ownership ambassador Tommy Carter!! Tommy has a great team around him now in Kent Vose, Nicholas Jazeboski, and Sasha Blackwood but for a good part of '24 Tommy was doing almost everything in Cutting, with all 3 only joining in the Fall/Winter and Sasha just part time at first. From inspection, to machine operation, touching up, and packaging as well as communication with customer service and production, Tommy completely owned Cutting exactly like owning implies, like it was his own business. No job or task was too small, and the endless effort and care he applied to the quality and delivering for our customers and our customer service team is so totally seen and appreciated! The success of Quilting added to his workload in cutting and inspecting the panels as well leading into greater responsibility this year. Thank you Tommy for all you do, this acknowledgement is so well deserved!

SUPERLATIVE WINNER

TOMMY CARTER

Ownership is a higher form of accountability - way more than just doing your job - this is all about going above and beyond in meeting any issue, opportunity, and/or challenge aplomb. Taking ownership has little to do with us as individuals, and everything with doing what will ensure the success and fulfillment of all partners (customers, employees, and suppliers) and the company.
